Hi Brian,

I have been given the OK to have an effluent sample analyzed and send you a copy of the results.

Lab analysis attached.

Glad I could help.

Hi Brian,

Last week we talked, and you asked if I could send you NO2 and NO3 lab results for the Dover waste water plant.

I have so far not received permission from the City to spend money on additional testing that we are not required to do. The budget here is extremely tight.

I will let you know as soon as I can what their decision is, or City officials will contact you themselves.

Thank you

Mike Wade
